MEMORANDUM FOR THE FILES

STATSPEC

SUBJECT: Conference with OSO/

STATSPEC

25X1A

1. A conference was held on 29 June 1949 on the question of obtaining from OSO/IR intelligence information useful to OPC with respect to mounting operations looking towards penetration of USSR, present memo:

25X1A

Intelligence Liaison.

2. It was agreed as follows:

STATSPEC

a. All [redacted] disseminations of such materials will show distribution to OPC/COP on the distribution ladder.

STATSPEC

b. [redacted] upon request, will promptly provide reports upon specific subjects; i.e., Iranian border controls.

STATSPEC

c. Informal liaison will be maintained between COP and [redacted] for spot answers, where exigencies of time or simplicity of request makes formal liaison requests undesirable.

STATSPEC

3. It was made clear, however, that [redacted] would not release to COP information as to personalities, etc., who might offer specific means of penetration for the reason that OSO would wish to use such information for its own operations. It is the OSO position that the only practical answer to such problem is joint OSO/OPC operations for purposes of initial penetrations, particularly in view of the difficult problem which such penetration offers.
